

Kuwait Island Lithium Battery Cabinet Explosion-proof Type

Overview

The LithiumSafe™ Battery Box is designed for safely storing, charging and transporting lithium ion batteries. The most intensively tested battery fire containment solution on the market, engineered to fight all thermal runaway problems: The behaviour of a lithium battery fire can. Lithium batteries are powerful—but they also come with serious fire risks if not handled properly. That's where our EN 14470-compliant safety cabinets come in. Made with a proprietary 9-layer ChargeGuard™ system that helps minimize potential losses from fire, smoke, and explosions caused by Lithium batteries. A lithium-ion battery charging cabinet provides both. Guangsheng Technology Wuxi Co., with its professional deep cultivation and innovative breakthroughs in the field of safe storage, has grown into a highly acclaimed leading manufacturing enterprise of Lithium-battery Cabinets in the industry.
