. The Confederated Tribes of the Colville Reservation will deploy multiple microgrids to enhance energy reliability and resiliency in an effort to achieve energy sovereignty. The Tribes, along with Open Access Technology International, on November 12 announced a landmark collaboration to advance. Ebara, Mitsubishi Electric, Zap Energy, Nuclear, Infineon, Nissan, Fermata Energy, and other companies reached notable goals this week. Meta, OpenAI, and Google are locking in power years before their AI data centers are scheduled to come online. Read, watch, and listen to the latest from Scale, with updates on our latest news, blogs and white papers, media appearances, and more.
