

# Latest photovoltaic panel purchase policy

## Overview

---

Under this new law, homeowners who purchase their systems with cash or a loan will no longer be eligible for the 30% federal tax credit after Decem. Previously, this solar tax credit was available through 2034. On J, President Trump signed into law Congress's budget reconciliation bill, H. 1—commonly known as the One Big Beautiful Bill. Solar developers, manufacturers, and investors are now adjusting to new regulatory realities that will shape project economics. This policy roundup. A Solar Power Purchase Agreement (SPPA) is a financial arrangement in which a third-party developer owns, operates, and maintains the photovoltaic (PV) system, and a host customer agrees to site the system on its property and purchases the system's electric output from the solar services provider. This report provides an exhaustive analysis of the financial incentives available on a state-by-state basis for the 2026-2027 period, a timeframe defined by a pivotal federal policy shift. The passage of the "One Big Beautiful Bill" (OBBBA) in mid-2025 has created a bifurcated market by. When combined with favorable net metering policies, solar systems provide significant long-term solar investment savings that outweigh the initial system cost.
