

Laying of double-glass modules

Overview

These modules use two layers of tempered glass, sandwiching photovoltaic cells for enhanced protection against environmental stressors. But how do you laminate them correctly to ensure peak performance?

Let's break it down. All the information described in this Manual is the intellectual property of JA Solar and is based on the technologies and experience that have been acquired and accumulated by JA Solar. This Manual does not constitute a warranty. Thanks for choosing SEG Solar Photovoltaic Modules (hereafter referred to as "PV Module"), This Guide is to give information on how to apply SEG Solar PV modules properly. During Modules installation and routine maintenance, operators should follow all safety. This general manual applies to the installation, maintenance and use of the double glass solar modules manufactured by ZNSHINE PV-TECH Co. (hereinafter referred to as "ZNSHINE SOLAR"). Failure to follow these instructions could result in personal injury or property damage.
