

Liechtenstein 220V to 380V inverter

Overview

INPUT AND OUTPUT: Universal frequency converter, single phase 220V input and 3 phase 380V output, suitable for 7.5KW (10HP) motor power, has good practicability. 8A 50Hz-60Hz Output Voltage: AC3HP 0V-380V 5A 0Hz-3000Hz Matching Motor Power: 0.75KW Rated Current: 9A Voltage Type: AC220V to AC380V (boost) Filter: Built-in filter Protection Level: . The conversion from 220V to 380V (line-to-line voltage) is common in systems where higher efficiency and balanced load distribution are required. With multiple protection methods and excellent driving performance, they can solve the difficulty of users lacking 380V power. Whether you're looking to run heavy-duty industrial equipment or manage power in remote areas, the 220 to 380 inverter is your go-to solution. This high-performance inverter effortlessly converts. Especially in specific application scenarios, such as when it is necessary to convert a 220V single-phase power supply to a 380V three-phase power supply, the 220V single phase to 380V 3 phase converter becomes an indispensable device.

Liechtenstein 220V to 380V inverter

VFD Variable Frequency Drive, Single Phase 220V Input to 3 Phase 380V

We can deliver the VFD Variable Frequency Drive, Single Phase 220V Input to 3 Phase 380V Output 7.5KW 10HP 32A, VFD Inverter Converter for Spindle Motor Speed Control speedily without the ...
