

Lithium battery station cabinets are divided into several systems

 **TAX FREE**    

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Overview

Key configurations include vertical stacking, horizontal layouts, and hybrid designs optimized for scalability, thermal management, and space efficiency. Made with a proprietary 9-layer ChargeGuard™ system that helps minimize potential losses from fire, smoke, and explosions caused by Lithium batteries. Battery banks, regardless of their chemistry, store an enormous amount of energy. A failure can have catastrophic consequences. The rack serves as both a. Lithium-ion battery storage racks are modular frameworks designed to safely house multiple battery cells or packs in energy storage systems. This article explores why a battery charging safety cabinet is essential, how it meets US and EU regulations.
