

Location of Song Solar Power Station

Overview

The San Onofre Nuclear Generating Station (SONGS), operated by Southern California Edison (SCE) is approximately 100 km (60 mi) south of Los Angeles, 6.5 km (4 mi) south of San Clemente, CA. We are committed to meeting our responsibilities and doing the right thing for our region throughout this process. Our core principles are Safety, Stewardship and Engagement. The plant was shut down in 2013; it is currently in preparation to be decommissioned. Construction on units two and three commenced in 1974 and completed in 1981.
