

# Low-cost energy storage companies

## Overview

---

Here are ten US-based startups making waves in energy storage that have caught the eye of the Storm4 team in 2026. Who is leading the charge?

Read below to find out. Form Energy builds multi-day iron-air batteries designed to store energy for 100+ hours at low cost. Our AI-powered database combines millions of company and investor profiles, making it simple to filter, search, and benchmark opportunities. By sourcing the lowest-cost domestic batteries, blending used and new, and simplifying installation and system design, we deliver the lowest-cost energy storage on the market. These startups develop new energy storage technologies such as advanced lithium-ion batteries, gravity storage, compressed air energy storage (CAES), hydrogen storage, etc Noon Energy is creating multi-day energy storage systems based on reversible solid oxide fuel cells. Another significant player is Nest, which integrates.
