

# Malta Hybrid Energy Storage Project

## Overview

---

His project, under the name Hybrid Energy Storage Systems (HESS), funded by Xjenza Malta, is studying how hydrogen generation can be used to maximise energy generated from renewable sources. HESS is a two-year research project and is a collaboration between the Department of Electrical Engineering within the University of Malta and Beijing Institute of Technology in China. Jonathan Firbank speaks with project investigator Prof., a leader in long-duration energy storage, today announced that it has closed on a round of financing. J- Germany- Malta Hochtemperatur Wärmepumpen Stromspeicher GmbH, an affiliate of Malta Inc, a global leader in long-duration energy storage, announced the groundbreaking of the expansion of DLR's world-leading test facility for thermal energy storage in molten salts (TESIS) for the. Laughlin, "Mass Grid Storage With Reversible Brayton Engines," in Thermal, Mechanical, and Hybrid Chemical Energy Storage Systems, ed. 13 years in power gen CSP construction, maint.

### ENERGY STORAGE SYSTEM

**Product Model**  
HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW/115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

## The Malta Energy Storage Power Station Project: A Game-Changer for

The system stores excess renewable energy as thermal mass - sort of like a giant thermos for electrons. During the 2023 Texas grid emergency, a Malta prototype provided 72 hours of continuous power when ...
