

Malta battery storage manufacturer

Overview

Preparations are in hand for the country to have its first large battery plant that will store electric energy by means of Interconnect Malta in collaboration with Enemalta and the subsidiary company International Energy Service Centre Limited. Malta's utility-scale, long-duration energy storage system uses steam-based heat pump technology to deliver dispatchable, cost-effective energy. "Grid-scale storage plays an important role in the EU Net Zero Emissions by 2050 Scenario, providing important system services. CAMBRIDGE, Mass. It provides the flexibility and resilience needed to accommodate increasing amounts of renewable energy, reducing reliance on fossil fuels and paving the way for a cleaner, more sustainable energy future.
