

Mauritanian government energy storage

Overview

The Mauritanian government has signed a landmark agreement to build the country's first hybrid renewable power plant, combining 160 MW of solar, 60 MW of wind and 370 MWh of battery energy storage system. The facility will combine 160 MW of solar and 60 MW of wind capacity, supported by a 370-megawatt-hour (MWh) energy. NOUAKCHOTT, Ma- The World Bank Group today approved the Mauritania Development of Energy Resources and Mineral Sector Support Project —known as the DREAM Project —to boost green hydrogen development, expand energy storage, and support critical reforms in the mining sector.
