

Maximum capacity of prefabricated solar container battery cabin

Overview

C3 corrosion rating for up to 25 years of life. Intelligent air-cooled heat pipe system, temperature difference inside the box $<5^{\circ}\text{C}$. Fully loaded for transportation and quick installation. Active fire. 40 feet maximum 6. Active fire. Lithium batteries are CATL brand, whose LFP chemistry packs 1 MWh of energy into a battery volume of 2. Our design incorporates safety protection mechanisms to endure extreme environments and rugged deployments. Our system will operate reliably in varying locations from North. Adding Containerized Battery Energy Storage System (BESS) to solar, wind, EV charger, and other renewable energy applications can reduce energy costs, minimize carbon footprint, and increase energy efficiency.

Maximum capacity of prefabricated solar container battery cabin

Air-cooled Prefabricated Cabin Energy Storage Battery System

Air-cooled prefabricated cabin energy storage battery system is a large-capacity battery energy storage device with standardized design and flexible configuration.

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Containerized energy storage , Microgreen.ca

It is the global volume leader among Tier 1 lithium battery suppliers with plant capacity of 77 GWh (year-end 2019)

data). Range of MWh: we offer 20, 30 and 40-foot container sizes to provide an energy ...
