

Mhz outdoor base station

Overview

2m fiberglass omni-directional base station antenna provides strong reception and transmission for ham radio operators, emergency communication, and mobile radio enthusiasts. The HYS antenna features UHF of 462-467MHz (460-470Mhz) with VSWR:< 1. The HYS antenna is. Outdoor LTE base station with dual-carrier support and built-in high-gain omni antennas for private network deployments in Bands 40 and 48. Let us help you design a system that meets your needs today and into the future. Here, you will find a variety of base station antenna options to choose from: Indoor and/or Outdoor Base Station Antennas, Omnidirectional Base Station Antennas, VHF Base Station Antennas, Yagi Antennas, Discone. Laird Omnidirectional base station antennas are collinear designs enclosed in a high density fiberglass, which is covered with a protective ultraviolet inhibiting coating. The radiating elements are made from high efficiency copper and are carefully phased to provide maximum gain in the horizontal.
