

Moldova Mobile Energy Storage Container Low-Pressure Type Price Inquiry

Overview

The upcoming Moldova wind and storage tender will support up to 170 MW of new onshore wind capacity combined with mandatory battery energy storage. Bid submission is expected in March 2026, with contract awards planned for June 2026. The Republic of Moldova has taken another significant step toward strengthening its energy security by initiating the procurement of a state-of-the-art Battery Energy Storage System (BESS). The tender process, launched by USAID through the Moldova Energy Security Activity (MESA) in partnership with. Moldova will buy a Battery energy storing system (BESS) of the last generation, with a capacity of 75 MW, as well as internal combustion engines (ICE) with a capacity of 22 MW. "A typical 10 kWh lithium storage system in Chisinau now costs €4,200-€6,800 installed – 14% cheaper than 2022 prices. With solar and wind capacity growing at 12% annually, the country aims to reduce reliance on imported electricity by 35% before 2030. In the first phase of the tender.
