Fire at one of the world's largest battery plants forces

A major fire erupted south of San Francisco at the Moss Landing Power Plant, forcing hundreds to evacuate. So far, the fire has stayed in the facility, which stores thousands of lithium ...

[Learn More](#)

After Moss Landing, what's next for battery storage?

Energy storage experts note that the Moss Landing facility was housed indoors and used a type of battery more prone to thermal runaway, among other potential safety issues.
