

# No illegal construction of photovoltaic panel manufacturers

## Overview

---

Let's cut through the confusion: Installing photovoltaic panels isn't inherently illegal, but it's like baking a soufflé – get one step wrong and the whole thing collapses. Recent court rulings across China reveal an intriguing pattern. With solar panel technology, you can do just that. Unfortunately, some states make this harder to achieve with restrictions on solar energy and its financing. With the ITC just issuing its affirmative preliminary determination, we thought now was an appropriate time to answer these questions. While federal guidelines provide a baseline, local jurisdictions often implement additional requirements affecting everything from permit costs to HOA. Are photovoltaic panels used in illegal construction outlaws or bans solar panels; quite the opposite. Most states have solar access laws that forbid any agreement, covenant, condition, bylaw, or contract that outlaws or limits solar installations by Homeowners Associations (HOA) or other jurisdictions, even.
