

# Nordic energy storage power station construction

## Overview

---

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality in Finland's Ostrobothnia region, the project is expected to be completed in 2026. As energy stakeholders anticipate the completion of the Nivala-based infrastructure, the project led by SEB Nordic Energy's Locus Energy and Ingrid Capacity AB underscores. SEB Nordic Energy's portfolio company Locus Energy, in collaboration with Ingrid Capacity, proudly announces the groundbreaking of one of Finland's largest battery energy storage system (BESS) in Nivala Municipality, Northern Ostrobothnia. With a target to. Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites.
