

# Off-grid type data center cabinets for power distribution rooms

**ESS**

## Overview

---

This buyer's checklist helps procurement managers balance compliance, reliability, and total cost of ownership —and avoid project delays, penalties, and rework. Data centers live and die by electrical reliability. Introducing Rakworx's versatile Data Center Server Cabinet Portfolio, ranging from 24U to 52U in height and 600mm to 750mm in width, with depths from 1070mm to 1200mm. Our cabinets have meshed doors and a robust six-brace design for superior load-bearing capacity. Ideal for your data center. The Liebert® RXV remote power distribution cabinet provides dense power distribution in a small footprint, with up to 400 Amp inputs and 84 poles in a single 24"x12" panelboard. The space-saving PDU is easy to move and adapt to the future demands of the data center.

## Off-grid type data center cabinets for power distribution rooms

### Power Switching and Distribution Cabinets

Power conditioning and distribution cabinet that offers the benefits of a custom-tailored system while offering the convenience and cost savings of a pre-packaged, factory-tested solution.
