Electricity sector in Paraguay

Overview
Electricity supply and demand
Access to electricity
Service quality
Responsibilities in the electricity sector
History of the electricity sector
Tariffs and subsidies
Investment and financing

Paraguay is one of the few countries in Latin America that has maintained an integrated electrical system. Because of the dominance of hydroelectricity, tariffs (mostly residential) are remarkably below the averages for the region. However, despite the abundance of resources, the Paraguayan electricity system faces difficulty due to the lack of

investment in transmission and distribution networks. In addition, distribution losses are among the highest in the region.
