Photovoltaic InverterXuji

Fuji Electric Sunbird 3000

With over two decades of experience in both on grid as well as off grid inverters, Sunbird offers great ROI as well as longstanding performance.

Products - Fuji solar

With compact design and high-power density, this series supports 1.3 DC/AC ratio, saving device investment. It supports three phase unbalanced output, extending the application scenarios.

FU-SUN-4/5/6/7/8/10/12K-G05 , 4-12KW , Three Phase , 2 MPPT

This series inverter is specially designed for three-phase PV systems, covering a wide power range of 4kW, 5kW, 6kW, 7kW, 8kW, 10kW, 12kW. With compactness design, it is easy to ...

Three Phase String Inverter

FUJI three-phase on-grid inverter power range is from 4kW to 110kW with 230/400Vac. So, it can connect to utility grid (230/400V) directly without transformer. All the inverters are equipped with LCD ...

FU-SUN 70/75/80/90/100/110K-G03 , 70-110KW

The Fuji 70-110K grid-connected inverter is suited for medium and large-scale commercial rooftops and ground-mounted solar PV system in which reliability and stability are important. the full series ...

Photovoltaic inverters: What are they and how do they work?

To transform direct current into alternating current, the solar inverter has a series of electronic mechanisms

that convert a linear or direct current into a sinusoidal or alternating current.

FUJI FU-SUN-3.6 3.6kW 2xmppt inverter: Solar Shop

The single-phase inverter is one of the best options for residential application thanks to its smaller size and local LCD display, buttons. Also, with built-in zero-export function (external CT is needed), it ...

Solar Inverters

Fuji Electric provides Central type and string type Solarinverters. Fuji Electric commercialized the world's first three-level module in which a new RB-IGBT* and an existing IGBT are integrated in one package.
