

Photovoltaic multifunctional inverter price

Overview

A solar inverter costs \$1,500 to \$3,000 total on average for a medium-sized solar-panel system installation. Think of it like this: a small apartment needs a smaller AC unit than a large house. The same principle applies here. A larger solar array needs an inverter with a. With prices ranging from \$0. While string inverters generally come with warranties ranging from 5 to 10 years, they may need replacing within the lifespan of the solar panels, depending. A solar inverter makes up about 10% of the total cost of your solar energy system.
