

Photovoltaic panel concrete lifting pulley

Overview

This innovative tool enables you to lift solar modules to the roof with ease and precision, making installation faster, safer, and more efficient. With its compact design and simple operation, Module Lift is ideal for both residential and commercial solar installations. The device uses your existing fiberglass Werner or Louisville extension ladder. A pulley system is attached to the top of the ladder. Solar panel lifters are essential tools that help streamline the process of transporting and installing photovoltaic (PV) modules on roofs.

Photovoltaic panel concrete lifting pulley

How to use the pulley to lift the photovoltaic panel

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder.
