

Photovoltaic panel hoisting

Overview

The FUEL™ Solar Lift fills a gap in the solar installation industry between expensive powered lifts that are time-consuming to set up and the unsafe practice of carrying solar panels and equipment up or down a ladder. Your video file is being uploaded. The currently loaded video is. The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder. A pulley system is attached to the top of the ladder. A patented module “hook” attaches to the edge of a PV module frame and. RGC's Platform Hoists and Swing Hoists are essential tools for solar panel installations, offering safe and efficient solutions for transporting heavy and bulky materials to rooftops and elevated areas. This is an excellent option for projects located in remote, off grid, or new construction areas where power is not readily accessible. This product comes with everything you need to.

Photovoltaic panel hoisting

FUEL Solar Lift

It takes less than 30 seconds to safely and easily lift solar panels and equipment to a two-story roof. At the end of the day simply tuck your lift into a regular work van, or even a car, where it is ready to set ...
