

# Photovoltaic power station energy storage operation and maintenance

## Overview

---

National Renewable Energy Laboratory, Sandia National Laboratory, SunSpec Alliance, and the SunShot National Laboratory Multiyear Partnership (SuNLaMP) PV O&M Best Practices Working Group. Best Practices for Operation and Maintenance of Photovoltaic and. This report is available at no cost from the National Renewable Energy Laboratory (NREL) at [www.nrel.gov](http://www.nrel.gov). Reported O&M costs vary widely, and a more standardized approach to planning and delivering O&M can make costs advanced maintenance approaches evident in the wind industry. Consequently, as a green, low-carbon, and flexible storage power source, the adoption of pumped storage power stations is also rising significantly. This guide is intended to serve as a resource for affordable housing developers and professionals to support the construction and maintenance of cost-effective and high-performance solar energy systems. Walker, Andy, Jal Desai, Thushara Gunda, and Nicole Jackson. Golden, CO: National Renewable Energy Laboratory.
