

# Photovoltaic support punching and cutting machine model

FLEXIBLE SETTING OF  
MULTIPLE WORKING MODES

## Overview

---

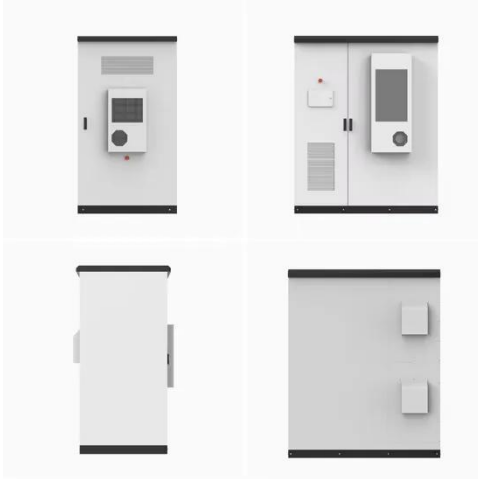

Suitable for the automated production of aluminum photovoltaic pendants, photovoltaic panel pendants, and briquettes. Processing procedures: servo feeding-hydraulic double hole punching-automatic cutting, with a high degree of automation. High batch production. High quality pv solar bracket punching and cutting machine, Single cutting multiple times, large daily production capacity, higher efficiency than conventional automatic aluminum cutting machine and manual punching equipment

Product Description Equipment Features

1. High batch production qualification rate. It has a built-in. EVA-TPT Cutting and Punching Machine|Radiant Pv Solar
1. Cutting speed:18-23 seconds/ pc; 2.

## Photovoltaic support punching and cutting machine model

---

### Photovoltaic bracket component punching and cutting machine

High quality pv solar bracket punching and cutting machine, Single cutting multiple times, large daily production capacity, higher efficiency than conventional automatic aluminum cutting machine and manual punching ...

[Learn More](#)

---

### Solar Photovoltaic Aluminum Machine, PV Pressing Block Machine for ...

It combines two core processes of punching (for mounting holes, positioning holes) and cutting (for length fixed-length cutting) in one machine, eliminating the need for multiple equipment transfers and reducing ...

## Photovoltaic block (pendant) punching machine JK-12C

It has a built-in no tailing function and does not waste aluminum profiles. This machine has 2 sets of built-in molds, which can process 2 aluminum profiles and double the work efficiency. Production efficiency: 20-30 ...

[Learn More](#)

## Aluminum profile punching machine

Scope of application: It is used for the operation of sawing and punching all-in-one machine for solar photovoltaic edge pressing block, photovoltaic intermediate pressing block, photovoltaic clamp and other materials.
