

Photovoltaic wind and energy storage stocks

Overview

The stocks, discussed below, carry a Zacks Rank #2 (Buy) each and have solid growth in 2026. According to the International Energy Agency, about 4 million vehicles were sold in the first quarter of 2025, up 35% from last year, and electric vehicles accounted for more than 20% of global vehicle sales last year. Sign up for stock news with our Invested newsletter. The same is true for solar. Read on to learn about some of the top energy storage stocks on the market and why you should consider investing in them. Companies in the industry are working to transition the global economy from fossil fuels such as oil and natural gas to renewable energy sources. Currently, less than 4% of all U. renewable power share is expected to rise from 22% in 2024 to 25% by 2026, led by solar growth.
