

Power cabinet rack type for highways

Overview

This meets the Highways Agency specification MCA 1188 for housing a range of power distribution and communication based equipment for their network. Manufactured and designed by Ritherdon according to National Highways requirements made from stainless steel with a 25-year guarantee. With over 300 cabinets available, we are sure to have a cabinet that meets your unique specifications. Manages up to 72 inputs and 32-channel outputs. The Flash Detector is a single door enclosure that is designed to work. Designed to provide storage for all your fluids and lubricants, this aluminum shelf has 3 differently sized bins to accommodate aerosol cans, single-quart oil bottles and gallon containers. Fold-down, aluminum tray.
