

Qatar World Cup Solar Power Generation

Overview

Since a capacity crowd cheered at the opening on Nov 20 of the 2022 FIFA World Cup at the brilliantly lighted Al Bayt Stadium in Doha, the capital of Qatar, a stable supply of clean power from a photovoltaic power station built by a Chinese company has been contributing to the. Since a capacity crowd cheered at the opening on Nov 20 of the 2022 FIFA World Cup at the brilliantly lighted Al Bayt Stadium in Doha, the capital of Qatar, a stable supply of clean power from a photovoltaic power station built by a Chinese company has been contributing to the. The 2022 FIFA World Cup is here - Qatar attracts attention with the world's biggest sporting event finally kicks off. On the morning of Octo, The Al Kharsaah, an 800MW solar power plant in Qatar has been connected to the grid at full capacity. The solar farm in al-Kharsaah, west of the capital Doha, is "one of the biggest" in the Middle East, said Saad Sherida al-Kaabi. The 2023 FIFA World Cup is being held in Qatar from Nov 21 to Dec 18, and the country's Al Kharsaah 800MW solar power plant built by POWERCHINA is providing green energy for the world-class sports event, according to a statement by Foreign Ministry spokeswoman Mao Ning on Dec 5.
