

# Small solar power generation system in Suriname

## Overview

---

Twelve remote villages in the Suriname forest now enjoy continuous power thanks to a new microgrid initiative. In 2019, POWERCHINA initiated. PowerChina is building three hybrid solar microgrids in Suriname, combining solar panels, energy storage, and diesel backup to power 25 remote villages across the country. Let's explore how businesses and households can tap into this green revolution.

## Small solar power generation system in Suriname
