

Snow collapsed the photovoltaic panels on the roof

Overview

Snow accumulation on solar panels can block sunlight and reduce electricity generation. The weight of snow can cause damage to the panels. Snow removal restores solar panels' ability to generate. And when snow does become a problem, the easiest way to automatically remove snow on solar panels isn't a rake or a gadget; it's smart system design.

Snow collapsed the photovoltaic panels on the roof

What Happens When Snow Covers Solar Panels?

Snow on your solar panels? Discover the physics of power loss, structural risks, system warranties, and safe removal techniques.
