

Solar Inverter Shipment Ranking

Overview

The top 10 global PV inverter vendors accounted for 81% of the market, according to Wood Mackenzie's 'Global solar inverter and module-level power electronics market share 2024' report. China was responsible for more than half of all global shipments, as the country's solar demand. Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The rankings evaluate 23 leading manufacturers from seven countries based on eight performance.

PVTIME - On 10 June 2025, the PVBL 2025 Global Top 100 Solar Brands rankings and the PVBL 2025 Global Solar Brand Influence Report were unveiled at the 10th Century Photovoltaic Conference in Shanghai, China. Huawei was followed by Sungrow Power Supply and Ginlong Solis in the second and third position respectively, based on shipments. Get notified via email when this statistic is. Recently, Wood Mackenzie, a leading global research authority in renewable energy, energy, and natural resource markets, officially released the 2024 global PV inverter shipment.
