

Solar Power Generation Association

Overview

SEIA is the voice of the solar industry, advocating for the protection and expansion of the U. 7 gigawatts (GW) of new capacity in Q3 2025, marking the industry's third-largest quarter on record and pushing total. Including the International Energy Agency (IEA) & International Renewable Energy Agency (IRENA), we run through the world's leading energy associations Energy associations play a crucial role in the energy sector as they offer a range of benefits to their members as well as the wider industry. The American clean power sector is providing reliable, affordable, and clean domestic energy while creating jobs, spurring investment, and driving innovation. National trade associations and other solar organizations are non-profit. Competitive power suppliers are bringing the benefits of competition to all Americans. EPSA member companies provide reliable, least cost electricity from environmentally responsible generation facilities using a diverse mix of fuels and technologies, including natural gas, nuclear, storage. Explore the latest solar market insights and policy updates in all 50 states and Washington, D. All market data is current through Q3 2025. California leads as the top solar state.
