

# Solar Power Generation Center

## Overview

---

Solar power, also known as solar electricity, is the conversion of energy from into, either directly using (PV) or indirectly using . use the to convert light into an . Concentrated solar power systems use or mirrors and systems to focus a large area of sunlight to a hot spot, often to drive a .

## Solar Power Generation Center

---

### Solar energy

Solar radiation may be converted directly into solar power (electricity) by solar cells, or photovoltaic cells. In such cells, a small electric voltage is generated when light strikes the junction ...
