

# Solar energy storage cabinet lithium battery station cabinet rated power

## Overview

---

Equipped to handle a rated voltage of 220V AC and a maximum current capacity of 1000A, it ensures reliable and efficient energy storage management. Supports flexible installation methods to adapt to various deployment scenarios Built-in safety systems and intelligent. The Vertiv™ EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. They assure perfect energy management to continue power supply without interruption. The system's capacity is up to.
