

# Solar glass industry base

## Overview

---

The global solar PV glass market was valued at USD 53.5 billion in 2024 and is estimated to grow at a CAGR of 7. The demand for solar PV glass is directly impacted by the notable increase in solar installations brought about by the global push for renewable energy. The global solar glass market size is projected at USD 10.3% during the forecast from 2026 to 2035. It has led to increased investments in solar power projects worldwide, raising the demand for solar PV glass. As manufacturers strive to produce more efficient solar modules, the demand for high-quality solar glass that can withstand harsh environmental. The Solar Photovoltaic Glass market is poised for significant expansion, projected to grow from \$17. Key growth drivers include.
