Compare trusted providers to save on electricity and switch to efficient, sustainable power. ** As of 30 April 2025, all companies, on this list or willing to join this list, will be required to meet the following criterion: a certificate of completion of the Installation of Solar Panels Certified Training organized by the 'Institut Européen de Coopération et Développement' (IECD) for at. This has pushed tens of thousands of Lebanese to look for alternatives - and notably to solar photovoltaics - in an attempt to ensure their basic electricity coverage. Since early 2020, solar panels have sprouted across Lebanon, from urban rooftops to agricultural lands. According to the. The pine-covered mountains and a foggy glimpse of the Mediterranean Sea are a pleasant distraction, but the real purpose of the tour is to see the 18 solar panels slightly obscuring the vista. Please note that companies are listed in random order, which means a company at. Faced with chronic shortages from the public supplier Electricité du Liban (EDL), rampant private diesel generator rationing, and high fuel prices and electric bills, Lebanese citizens turned to solar as a flicker of hope amid the darkness.
