Solar power generation and current status

Global Status of Renewables: Report

Solar PV was the primary driver, contributing 602 GW and accounting for 81% of the total capacity increase. Wind energy followed, adding 117 GW globally. Other renewable sources - ...

Quarterly Solar Industry Update

Each quarter, the National Renewable Energy Laboratory conducts the Quarterly Solar Industry Update, a presentation of technical trends within the solar industry.

[Learn More](#)

Global solar energy outlook

In the last few years, solar energy has been the main driver for renewable energy growth worldwide. In 2024, solar photovoltaic capacity additions

surpassed 600 gigawatts, accounting for
