

Solar power generation industry code

Overview

NAICS Code 221114: NAICS Code for solar farms, solar electric power generation and facilities that use energy from the sun to product electric energy. Special trade contractors primarily engaged in the installation of roofing, siding, and sheet metal work. The electric energy produced in these establishments is provided to electric power transmission systems or to. The industry code for solar energy primarily falls under the North American Industry Classification System (NAICS) as 221118, and the International Standard Industrial Classification (ISIC) as 3510. While no single code perfectly encapsulates all facets of renewable energy production, several codes cover specific sectors like solar power generation (4931), wind power generation. This U.

Solar power generation industry code

SIC Codes for solar

Important products of this industry are semiconductor diodes and stacks, including rectifiers, integrated microcircuits (semiconductor networks), transistors, solar cells, and light sensing and emitting semi ...
