

Solar power station for home in afghanistan

Overview

In this application, you will install a solar home system on a typical Afghan house. Located in the Logar Province, approximately 30 km. From 523 MW in 2024, Afghanistan aims for up to 5 GW renewable energy capacity by 2032. The construction of a 40 MW solar power plant is aligned with this strategy. Solar energy holds huge potential for electricity as well as heat generation in Afghanistan.
