

# **Solution to snow accumulation on photovoltaic panels**

## Overview

---

Snow accumulation on solar panels during winter can hinder their performance and reduce energy production. And when snow does become a problem, the easiest way to automatically remove snow on solar panels isn't a rake or a gadget; it's smart system design. Let's break down what actually works, what doesn't, and when snow removal really matters. While snow can temporarily reduce output, its impact is often smaller than expected. That's why homeowners frequently ask how to keep snow off of solar panels to maintain consistent performance. During the winter months, the accumulation of snow can significantly affect your solar panel's efficiency and output.
