

## Overview

---

New Battery Facility in Zaragoza: Stellantis and CATL will establish a lithium iron phosphate (LFP) battery plant at Stellantis' site in Zaragoza, Spain. Designed to be completely carbon neutral, the battery plant will. Attendees look at the next generation battery swapping station from China-based CATL, the world's largest EV battery maker in Xiamen, China. 1bn. CATL and Stellantis have started constructing a €4. The 50 GWh plant, supported by EU funding with 5,000 staff, will supply cells to Zaragoza EVs by late 2026. Contemporary Amperex Technology Co. Production Timeline: Operations are expected to begin by late 2026, with a potential production capacity of up to 50 GWh., Limited (CATL) have officially announced a 50/50 joint venture. This facility will be setting a milestone for Europe's EV ecosystem and will.
