

Specifications of 5MWh Outdoor Photovoltaic Cabinet

Overview

Configurable in multiple capacity sizes from 100kWh to 500kWh, with modular expandability based on energy needs. Includes short-circuit, overvoltage, thermal, and fault protections, with gas fire suppression and temperature alarms as optional features. sphate battery with high safety and high cycle life. The internal integrated battery cluster, Combiner box, Comprehensive cabinet, fire protection system, air cooling. This document introduces the safety and handling information, features, requirements, service, maintenance and warranty of 5MWh 20ft Liquid-cooling BESS of with the model of 5MWh (hereinafter referred to as 5MWh) in detail. 6300*2438*2896mm, internal cable of battery container. 4□ Safest LiFePO4 technology, sustained power supply. 5□ Long lifespan, up to 6000 cycles. The battery system is a containerized solution that integrates 10 racks of LFP batteries for the 4 MWh model and 12 racks of LFP batteries for the 5 MWh model, and offers a high energy density for. The Outdoor Photovoltaic Energy Cabinet is an all-in-one energy storage system with high strength, which can work under harsh environmental conditions to supply high-performance energy backup and regulation.

Specifications of 5MWh Outdoor Photovoltaic Cabinet

5MWh Containerized Energy Storage System

Product features(Containerized Energy Storage System): Low energy consumption, long life, high consistency, high stability. Application scenarios: photovoltaic power plants, wind power stations, ...
