

# St George Hydrogen Energy Site Distribution

## Overview

---

OneH2 provides customized hydrogen fuel solutions for businesses throughout a wide range of industries, from material handling and transportation to ports and agriculture. Find out how easy it is to switch to a more efficient power infrastructure and eliminate on-site emissions. From transportation and industry to power generation and residential applications, establishing robust hydrogen. Project Nujio'qonik (pronounced new-geo-ho-neek; the Project) as proposed by World Energy GH2 Inc. To achieve these outcomes, we create reliable, commercially. Work has started on creating a pioneering hydrogen refuelling station at Teesside International Airport. The new Element 2 hydrogen refuelling station, near the former St George Hotel, will refuel all hydrogen road vehicles.
