

# Swedish energy storage power supplier

## Overview

---

Independent power producer (IPP) Neoen and system integrator Nidec have started construction on a 93.9 MWh battery energy storage system (BESS) in Sweden, the largest in the country. Sweden is progressively investing in battery storage to facilitate the integration of wind energy, electrification, and. At Polar Bess, we specialize in advanced battery energy storage systems, enhancing grid resilience and promoting the global shift towards renewable energy sources with our cutting-edge technology and expertise. Developer and optimiser Ingrid Capacity and storage owner-operator BW ESS have been working together to deliver 14 large BESS projects across the Swedish grid in tariff zones SE3 and. From now on, Swedish factories, enterprises and energy operators can seamlessly access the SCU energy storage system and enjoy stable, intelligent and sustainable green electricity. Why choose SCU?

The technical strength behind the dual certification The highest EU standard certification: EN50549-1.
