

Tashkent s announcement on liquid flow batteries for communication base stations

Tashkent s announcement on liquid flow batteries for communication

Technology Strategy Assessment

Defined standards for measuring both the performance of flow battery systems and facilitating the interoperability of key flow battery components were identified as a key need by industry.

MegaFon Tajikistan Switches to New Battery Types - Communication

Instead of old lead-acid batteries, more reliable lithium-ion batteries will be used. This will allow base stations to operate longer in case of external power network outages.
