

The largest single energy storage project

Voltage range:691.2-947.2V

>6000 cycles(100%DOD)

Rated battery capacity:
216KWH (customizable)

EMS communication:
4G/CAN/RS485

Overview

The world's largest single-site electrochemical energy storage power station was connected to the grid on Decem. The second phase recently came online too. The Envision Jingyi Chagan Hada Energy Storage Power Station has a total installed capacity of 4 GWh and is fully equipped with Envision's AI-based energy storage system. Developed jointly by the Institute of Engineering Thermophysics, Chinese Academy of Sciences (IET, CAS) and ZHONG-CHU-GUO-NENG (BEIJING)TECHNOLOGY CO., the. Energy Storage Expert | Project Manager MBA | COP Delegate | ICE Carbon Champion | WFEO Energy Committee Member | CSET Youth Lead | ASPEN UK Rising Leader Fellow | Civil & Environmental Engineer CEng Envision has just connected the world's largest single-site electrochemical storage station, the 4. Fluence is enabling the global clean energy transition with market-leading energy storage products and services, and digital applications for renewables and storage.

The largest single energy storage project

Top 5 Largest Upcoming BESS Projects in the World 2025

Discover the world's biggest battery storage projects of 2025, including BYD's 12.5 GWh system in Saudi Arabia, Greenergy's 11 GWh Atacama project, and more shaping the global energy transition.
