

The latest version of photovoltaic panel transportation method

Overview

IEC has released IEC 62759-1, which addresses the transportation and shipping of solar photovoltaic (PV) module package units. These solar modules contain tempered glass and delicate cells that are prone to damage., according to the Department of Energy, underscoring its increasing significance in the global energy mix. Just look around your neighborhood. Here is how a good company packs it: • First panels go on the pallet bottoms up and the last one is placed front side up. We'll help you get material from point A to point B without issue.
