

There is no warranty for photovoltaic brackets

Overview

All our photovoltaic brackets come with a warranty. The length and terms of the warranty depend on the specific product you've purchased. According to the 2025 Solar Asset Owner Trends Report by PV Tech Research, 36% of solar project owners faced issues not covered by their warranties—most commonly related to inverter failure, early panel degradation, or workmanship faults. In financed or power purchase agreement (PPA) -based. Our warranty covers the structural integrity of the brackets. If, due to normal use, the bracket fails to support the weight of the solar panels or collapses under typical environmental conditions, we'll handle it.
