

# Tianfu New District Solar Power Generation Project

## Overview

---

In 2022, TW Solar signed an "Investment Agreement" with Meishan Management Committee of Tianfu New District, Sichuan to build a 32GW high-efficiency crystalline silicon cell project. The project will be constructed in two phases, with a total investment expected to be RMB12 billion. ?

shery" development model. Over 380,000 TONS Annual production capacity in 2023 NO. 1 in the world TW Solar PV Solar Cell and Panel Manufacturer As the most critical link, TW Solar has deeply engaged in the R& D, manufacturing, and pr ating to the Shihezi area. Completed in 2011, the plant is. illion yuan, covering an area of 24,900 mu. It is divided into 315 sub-arrays and is currently the largest single energy storage station un er construction on the domestic grid side. According to reports, these pro Technology (Nanjing) Co., controlled by Tongwei Group, is a large-scale, privately listed technology company with core businesses in green agriculture and green energy. If playback doesn't begin shortly, try restarting your device. An error occurred while retrieving. On Aug, a total of 25 major projects in the third quarter of Sichuan Tianfu New District started concentratedly, with a total investment of 40. The city layout considers the unique features in the landscape such as existing valleys, ridges and slopes and reinterprets them as parks, plazas, pedestrian streets and retail corridors.

## Tianfu New District Solar Power Generation Project
