

Tonga home solar system

Overview

Tonga is making tangible progress toward its renewable energy targets with the rollout of solar-powered mini-grid systems across its outer islands, in a bold move to reduce its dependence on expensive diesel imports and improve electricity access for remote communities. We're committed to increasing solar energy in Tonga. We're excited to be leading the charge and partnering with Tonga Power Limited to help get there and. Tonga's project involved rehabilitating solar home systems in the islands of Mo'unga'one and Mango and installing new solar home systems in Lofanga; all islands are in the Ha'apai group. The Market Development Facility (MDF) is a multi-country initiative that promotes sustainable economic development, through higher incomes for women and men, in our partner countries. We support partners from business and government to identify and grow commercial opportunities that are profitable. In the presence of Their Majesties King Tupou VI & Queen Nanasipau'u, The King & Queen of The Kingdom of Tonga, Tonga's new 6MW solar power plant was officially launched today at Fualu, Tongatapu by Prime Minister of the Kingdom of Tonga, Hon. Almost 90% of the population of these outer islands now has electricity, which equates to approximately 2000 systems, 230 kWp of solar energy and 2600 kWh of stored energy.

Tonga home solar system

- ✓ 50KW/100KWH
- ✓ HIGHER POWER OUTPUT IN OFF-GRID MODE
- ✓ CONVENIENT OPERATION & MAINTENANCE
- ✓ PRE-WIRED

ELECTRIFICATION IN TONGA OUTER ISLANDS USING ...

The system is sized to allow the external light to be left on all night to act as street lighting, thereby avoiding the problems associated with installing and maintaining separate systems for public lighting.
